

Start writing with no borders

P R O B L E M

CENSORSHIP made possible through web2 technologies forms the root of many problems:

1. Lack of clarity and transparency (why and how things are censored)
2. Culture of defensiveness, secrecy and intimidation
3. Curated content by single authority

S O L U T I O N

Unblogged is a decentralized blogging platform powered by IPFS and the Polygon blockchain. It aims to unblock censorship and provide true freedom-of-speech to creative writers and everyday bloggers.

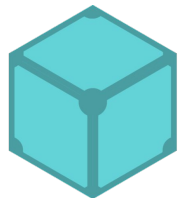

Fully
Decentralized and
Open Sourced

Discover trending
topics through
feed curation

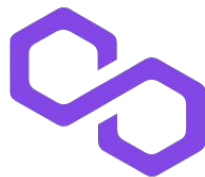

Easy to read &
write format using
markdown
